ADOBECOLDFUSION FUTURE PRODUCT RELEASES

NEXT VERSION OF COLDFUSION

**ColdFusion server codenamed “Splendor”**
- Mobile - Streamlined Mobile Application Development
- Revamped and new PDF functionalities
- Enabling Enterprise to easily integrate with Social Media Streams
- Improved installation and deployment experience

**ColdFusion Builder codenamed “Thunder”**
- End-to-end Mobile Application Development Workflow
- Improved getting started experience
- Professional JavaScript Development support

**ColdFusion on cloud**
- ColdFusion "Splendor" AMI on AWS
- Flexible cloud offerings

Other focus areas for Splendor

| Performance Enhancements | Security Language Improvements | Pluggable Framework HTML5 |

variation: seek out new ideas and try new things

survivability: when trying something new, do it on a scale where failure is survivable

selection: seek out feedback and learn from your mistakes as you go along

Great results happen when

- People know **why** they are doing their work
- Organisations focus on delivering **outcomes and impacts** rather than features
- Teams decide what to do next based on **immediate and direct feedback** from the use of their work
- Everyone **cares**
variation: seek out new ideas and try new things

survivability: when trying something new, do it on a scale where failure is survivable

selection: seek out feedback and learn from your mistakes as you go along

“Palchinsky Principles“ from Adapt, Tim Harford
___ CAN HELP US TO

ACHIEVE ___

BY ___ FASTER/BETTER

___ CAN OBSTRUCT US FROM ACHIEVING ___

BY ___ SLOWER/WORSE
GIBB DREXLER WEISBORD
TEAM BUILDING PROCESS

WHY?

WHO?

WHAT?

HOW?
Story Maps

Order books online

- Find book I want
- Collect books
- Commit order
- Wait for book
- Receive book

Deliverable achieving impact (Scenario delivers output)

User activities
- user
- time

User stories

- browse best sellers
- search book by title
- put into basket
- create wish list
- enter address
- pay with credit card
- receive delivery notification
- inquiry order status
- receive delivery slip
Story Maps

Order books online

- Find book I want
- Collect books
- Commit order
- Wait for book
- Receive book

Does the deliverable achieve the impact?

Receive books quicker

- Does the impact help the business goal?

Compulsive book buyer

- Browse best sellers
- Manual workaround
- Enter address
- Omitted steps
- Receive delivery slip
- Receive delivery notification

- Pay with credit card
- Inquiry
- Put into basket
- Walking skeleton

Search book by title
Increase voter turnout

Candidate
- Simpler and more convenient application
  - Apply online as candidate

Voter
- Simpler and more convenient participation
  - Candidates published on web
  - Vote online

Fund Management
- Less work with candidate approval
  - Shared checklist for tracking approval
  - Support profile with a password

BG1 - More candidates
BG3 - Decrease cost/effort of elections
A8 - Hoax candidates
A9 - Other funds
I14 - Prevent to publish any malicious candidate profiles
I15 - Increased voter turnout
D20 - Client specific customizations (design, check lists, candidate profile structure)
D19 - Support multiple tenants (permissions, separation of data)
D21 - Protect unpublished profiles with a password
Story Map Example: eVoting System

Nominate candidates

Vote and determine results

Provision and support

Initially assumed product backlog
Sprint 1
Sprint 2

Nominate candidates

Requirements:
- US26: das publizierte Profil eines Kandidaten abrufen
- US39: die Liste der Kandidaten abrufen
- US34: eine Kandidatur erfolgreich oder ablehnen
Sprint 3

Vote and determine results
Not implemented functionality
Added functionality
Sprint 4
No of Candidates: 67 -> 368

ca. 70kEUR savings for print, postage, scan

No of election staff: 14 -> 4

Enterprises who run more experiments in shorter time, are more competitive!
